Dear Mr. Gratton,

Subject: Verification of TSM Self-Assessment for Teck Resources Limited

Teck Resources Limited has a process in place to verify the information provided to the Mining Association of Canada (MAC) with respect to our participation in the Towards Sustainable Mining (TSM) Performance Indicators.

Our TSM Verification Process included an external verification performed by PricewaterhouseCoopers (PwC) or an internal verification performed by Teck head office personnel, based on results from the last verification cycle. The reviews assessed Teck's reported performance indicator results for the year ending December 31, 2018 as measured against the requirements of MAC's TSM Performance Indicators.

Performance was verified for the following operations as outlined in the attached table:

- Elkview
- Fording River
- Highland Valley Copper

The results submitted online reflect the verified results and the nature of the verification.

Please feel free to contact Laurie Kelly (604-699-5018) if you have any questions regarding our 2018 results.

Sincerely,

Donald R. Lindsay
President and CEO
Teck Resources Limited
