Dear Mr. Gratton:

This letter is to attest that Agnico Eagle has a process in place to verify the information provided to the Mining Association of Canada (MAC) with respect to the Company's Towards Sustainable Mining (TSM) Performance Indicators. We are pleased to provide the following assurance statement regarding the external verification of our TSM performance for 2014.

The "TSM Verification Process" included an independent review performed by the firm EEM Sustainable Management at our six mine sites: Goldex, Lapa, LaRonde and Meadowbank in Canada, the Kittila mine in Finland and the Pinos Altos mine in Mexico. The crisis management results were also reviewed at the corporate office. The verifier assessed the company's reported TSM performance indicator results as measured against the requirements of MAC's Performance Indicators.

The external verifier concluded the following:

- 125 criteria met or exceeded a level (A) requirement based on a total of 132 applicable assessed criteria;
- a global conformance average of 95% was assessed;
- 4 criteria were downgraded ; and
- 27 criteria were upgraded.

We agree with these changes and have modified our evaluation of these indicators accordingly. Please feel free to contact Denis Therrien at (819) 759-3700 ext. 5850 if you have any questions about our results.

Yours truly,

Sean Boyd
Vice-Chairman and Chief Executive Officer
