Mr. Gordon Peeling
President and CEO
The Mining Association of Canada
1105-350 Sparks Street
Ottawa, ON K1R 7S8

Dear Mr. Peeling:

Inmet Mining Corporation has a process in place to verify the information provided to the Mining Association of Canada (MAC) with respect to the Company's Towards Sustainable Mining (TSM) Performance Indicators.

The TSM Verification Process included an independent review performed by Managed Process Consulting Inc. (MPC). The verifier assessed the company's reported TSM performance indicator results as measured against the requirements of MAC's Towards Sustainable Mining Performance Indicators.

The review confirms that the reported results for the period ending December 31, 2008 fairly state the company's performance, except for the evaluation of:

- Çayeli's Energy Intensity Performance Target which the site self-assessed as a 2 and which MPC evaluated as a 4 after reviewing the available information,
- Pyhäsalmi's Tailings Management Assigned Responsibility which the site self-assessed at 4 and which MPC evaluated as a 3 after reviewing the available information,
- Çayeli's Tailings Management Assigned Responsibility and Annual Senior Management Review which the site self-assessed at 2 and 1, respectively and which MPC evaluated as a 3 and 2, respectively after reviewing the available information

We agree with the change and have modified our evaluation of these indicators accordingly.

Please feel free to contact Craig Ford at (416) 860-3960 if you have any questions about our results.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard Ross", written in a cursive style.

Richard Ross
Chairman and CEO
