Dear Mr Pierre Gratton,

RE: MAC Towards Sustainable Mining external verification

Suncor Energy Inc. has a process in place to verify the information provided to the Mining Association of Canada ("MAC") with respect to our participation in the Towards Sustainable Mining ("TSM") performance indicators.

Our TSM Verification Process included an independent review performed by Ernst & Young, LLP. The verifier assessed the company's reported TSM performance indicator results as measured against requirements of MAC's *Towards Sustainable Mining Performance Indicators*. Performance was verified for our oil sands Base Plant facility.

The review confirms that the reported results for the period ending December 31, 2018 fairly state Suncor's performance.

Please feel free to contact Anne Marie Toutant, should you have any further questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Mike MacSween". The signature is fluid and extends to the right.

Mike MacSween
