Dear Mr. Gratton,

Subject: Verification of TSM Self-Assessment for Teck Resources Limited

Teck Resources Limited (Teck) has a process in place to verify the information provided to the Mining Association of Canada (MAC) with respect to our participation in the Towards Sustainable Mining (TSM) Performance Indicators.

PricewaterhouseCoopers provided external verification of all required TSM Protocols for performance indicator results for the year ending December 31, 2022; except the TSM Tailings Management Protocol. Priscu and Associates Consulting Engineers Inc. provided external verification of the TSM Tailings Management Protocol and were specifically chosen for their expertise in tailings management.

Internal verification was performed by Teck head office and Business Unit/site personnel. The reviews assessed Teck's reported performance indicator results for the year ending December 31, 2022, as measured against the requirements of MAC's TSM Performance Indicators.

Performance was verified for the following operations as outlined in the attached table:

- Elkview
- Fording River
- Greenhills
- Highland Valley Copper
- Line Creek
- Trail
- Vancouver Head Office

The results submitted online reflect the verified results and the nature of the verification (internal or external).

Please feel free to contact Chris Stroich (604.695.5837) if you have any questions regarding our 2022 results.

Best regards,

Jonathan Price
Chief Executive Officer
