Dear Name:

Dear Mr. Pierre Gratton,

RE: MAC Towards Sustainable Mining external verification

Suncor Energy Inc. has a process in place to verify the information provided to the Mining Association of Canada ("MAC") with respect to our participation in the Towards Sustainable Mining ("TSM") performance indicators.

Our TSM Verification Process included an independent review performed by Safety Science Management Consulting Inc. The verifier assessed the company's reported TSM performance indicator results as measured against requirements of MAC's Towards sustainable Mining performance Indicators. Performance was verified for our Oil Sands Base Plant and Fort Hills facilities.

The review confirms that the reported results for the period ending December 31, 2022 fairly state Suncor's performance.

Please feel free to contact Tina Markovic, should you have any further questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Peter Zebedee", is written over a horizontal line.
