Ottawa, ON K1P 5H9

Re: 2022 Letter of Assurance

Newmont Corporation has a process in place to verify the information provided to the Mining Association of Canada (MAC) with respect to our participation in the Towards Sustainable Mining (TSM) Performance Indicators. Newmont is pleased to submit this letter of assurance regarding the 2022 TSM verification results for our Porcupine and Musselwhite operations.

The TSM verification process included an external verification performed by Pricewaterhouse Coopers. The verifiers reviewed the process developed and implemented by Newmont and assessed Porcupine and Musselwhite operations' reported performance indicator results for 2022 as measured against the criteria of the TSM Performance Indicators and supporting guidance contained in each of MAC's seven TSM Assessment Protocols.

The results submitted online and the associated summary report provided reflect the verified results. As an active MAC member, you can count on our support and commitment to continually improve our performance and to contribute constructively to the evolution of the TSM program.

Please feel free to contact Briony Coleman, Global Director Compliance, Systems and Assurance (briony.coleman@newmont.com), should you have any questions or comments regarding the 2022 results.

Sincerely,

Peter Toth
Executive Vice President, Chief Strategy & Sustainability Officer
