Dear Mr. Gratton,

Subject: Verification of TSM Self-Assessment for Teck Resources Limited

Teck Resources Limited has a process in place to verify the information provided to the Mining Association of Canada (MAC) with respect to our participation in the Towards Sustainable Mining (TSM) Performance Indicators.

Internal verification was performed by Teck personnel. The reviews assessed Teck's reported performance indicator results for the year ending December 31, 2023, as measured against the requirements of MAC's TSM Performance Indicators.

PricewaterhouseCoopers provided external verification of all required TSM Protocols for performance indicator results for the year ending December 31, 2023.

Performance was verified by PricewaterhouseCoopers for the following operations as outlined in Table 1:

- Quebrada Blanca
- Carmen de Andacollo
- Red Dog Operations

The results submitted online reflect the verified results and the nature of the verification (internal or external).

Please feel free to contact Tracey Jacquemin, Director Sustainability Assurance and Management Systems (236.889.6727) if you have any questions regarding our 2023 results.

Sincerely,

Jonathan Price
President and CEO
