Re: MAC Towards Sustainable Mining 2023 External Verification

Dear Mr. Gratton,

Canadian Natural Resources Limited (Canadian Natural) has a process in place to verify the information provided to the Mining Association of Canada (MAC) with respect to the Company's Towards Sustainable Mining (TSM) Performance Indicators.

The TSM Verification Process included an independent review performed by Envirochem Services Inc, in accordance with the Verifier Terms of Reference. The verifier assessed the company's reported 2023 TSM performance indicator results for the period ending December 31, 2023 as measured against the requirements of MAC's TSM Performance Indicators. In addition, verification includes the results of an external audit performed against the new Tailings Management Protocol and Table of Conformance (2022 version). The external verification confirms the reported results for the period ending December 31, 2023 fairly state Canadian Natural's performance and reflect our commitment to environmental stewardship and safety excellence.

Please feel free to contact Scott Wytrychowski, Regulatory Manager Oil Sands Mining Operations, if you have any further questions.

Jay Froc
Senior Vice President, Oil Sands
