Re: Towards Sustainable Mining Letter of Assurance

Dear Mr. Gratton,

On behalf of New Gold Inc. (New Gold), I am pleased to provide the following assurance statement regarding the external verification of New Gold's Towards Sustainable Mining (TSM) performance at our New Afton Mine in British Columbia Canada, which completed its TSM external verification in 2024.

The external verification was conducted by Neil Allen at Envirochem, according to the TSM Verification Services Provider Terms of Reference, through review of documentation, virtual and in person interviews as well as a mine site visit. The external verification confirms that the results are an accurate representation of New Gold's performance against the requirements of TSM.

The results submitted online reflect the verified results for New Afton and internal self-assessment for Rainy River.

Please feel free to contact Sophie Bertrand ([sustainability@newgold.com](mailto:sustainability@newgold.com)) for questions regarding our 2024 results.

Best regards,

A handwritten signature in blue ink, appearing to read "Patrick Godin". The signature is fluid and cursive, with a large loop at the beginning and a trailing flourish at the end.

Patrick Godin  
President and Chief Executive Officer
