

FIRST QUANTUM

MINERALS LTD.

May 7, 2025

Mr. Pierre Gratton
President and CEO
Mining Association of Canada
1100 – 275 Slater Street
Ottawa ON K1P 5H9

Dear Mr. Gratton:

This letter is to attest that First Quantum Minerals Limited has a process in place for senior management to verify the information provided to the Mining Association of Canada (MAC) with respect to the company's Towards Sustainable Mining (TSM) Performance Indicators. We are pleased to provide the following assurance statement regarding the verification of our TSM performance for 2024.

The TSM verification process included an independent review performed by ESG Management Consulting Inc. – Robert Duda. The external verification was completed for our four closed sites in Canada as well as the corporate group. The verifier measured the company's self-assessed TSM performance indicators against the requirements of MAC's TSM standards.

The external verification was sent to MAC in December 2024.

While First Quantum is pleased with the improvements since our last verification these facilities are committed to improving upon these results and have put processes in place to continue pursuing excellence.

Should you require further information or have questions regarding this matter you can contact Tracy Anderson at tracy.anderson@fqml.com

Regards,

Andrew Hester
Group Environmental Manager
