Appendix: TSM Community Engagement Excellence Award Criteria

The TSM Community Engagement Excellence Award shall be given to a mine or metallurgical site currently participating in and publicly reporting on TSM. The nominated achievement in community engagement must have taken place within the last three years. The initiative will be assessed for innovation, replicability, impact, and involvement of communities of interest.

For example, relevant initiatives could:

- Engage with communities of interest and to ensure that they have a meaningful voice in the company's decision-making processes.
- Collaborate with communities of interest to address common community goals.
- Address a specific need identified by the local community.
- Make a strategic investment with a large impact.
- Implement approaches to equity, diversity, inclusion, health, or safety initiatives for employees, contractors, or communities.
- Provide lasting benefits to local communities through self-sustaining programs that enhance the economic, social, educational, and health aspects of a community.
- Collaborate with governments and communities to support and promote community development programs.

General Requirements

1. A mine or metallurgical site's most recent TSM performance results will be a factor in the selection process. Recipients of this award must have completed at least one cycle of TSM external verification.
2. The TSM Awards Selection Committee, a sub-committee of the Community of Interest Panel, reserves the right to decline to issue an award or to issue more than one award each year.
3. Only one nomination per facility, per award, is permitted each year.
4. Members of the TSM Awards Selection Committee shall not be party to the nomination of any candidate.

Nomination Process

The deadline for nominations is 5:00 PM EST on January 15, 2026.

Nominations should be submitted by e-mail to: tsm@mining.ca
