Mr. Pierre Gratton  
President and CEO  
Mining Association of Canada  
275 Slater Street, Suite 1100  
Ottawa, ON K1P 5H9

**Re: Letter of Assurance – 2025 Towards Sustainable Mining – External Verification**

Dear Mr. Gratton,

This letter confirms that Scully Mine, operated by Tacora Resources Inc. (Tacora), has a process in place to verify the information submitted to the Mining Association of Canada (MAC) in accordance with Toward Sustainability Mining (TSM) guidelines. The TSM verification process included an independent review conducted by Tetra Tech, assessing the company's TSM self assessment against MAC's TSM Protocol Performance Indicators.

Indigenous and Community Relationships (2019)	Crisis Management and Communications Planning (2022)
Biodiversity Conservation Management (2020)	Safety, Healthy and Respectful Workplaces (2020)
Water Stewardship (2018)	Tailings Management (2023)
Climate Change (2021)	Prevention of Child and Forced Labour (2019)

In addition, Tacora voluntarily undertook verification against the new MAC TSM protocol Equitable, Diverse and Inclusive Workplaces (2023) ahead of the mandatory reporting period beginning in 2026. The verification was conducted in accordance with the Terms of Reference for Verifiers and primarily consisted of interviews, document analysis and review of other relevant evidence to confirm the company's compliance. Externally verified results submitted to MAC in December 2025 accurately reflect Tacora's performance. Should you require any further information, please don't hesitate to contact Pamela Power, Manager Environment, at [Pamela.Power@tacoraresources.com](mailto:Pamela.Power@tacoraresources.com)

Sincerely,

Brian Penney

*President and CEO Tacora Resources*
